

Dear Valor Parents,

The Valor Counseling Department is offering a full length practice ACT test in partnership with Sylvan Learning. This test is available to Juniors and will simulate the test environment that your student will experience when they take the actual SAT and ACT college entrance exams. A computer analysis and a complimentary group result consultation will be provided after the tests have been scored and the data has been compiled by Sylvan Learning. There is no fee for taking this test.

Juniors who do not choose to take this practice test will be encouraged to go on a college visit that day instead.
