

Students Recognized with “Top 5” Awards for 2009 Fall Semester

On Monday, February 22, 36 students were presented with “Top 5” department awards. The awards were distributed during Forum by the department chairs. While the criteria for the awards varied slightly from department to department, the common denominator was that the Top 5 awards went to students who demonstrated the pursuit of excellence in the 2009 Fall Semester. In some cases, departments named the awards after specific people or ideas in their respective fields, while others chose to recognize the students under the banner of excellence. We hope this becomes a tradition of celebrating excellence in the classroom. Listed below are the department awards along with the recipients.

Math:

Edison Award – Ty Scott
Euclid Award – Aimee Larrabee (Honors Geometry)
Euler Award – Josh Kamrass (Honors Algebra 2/
Trigonometry)
